GLOBAL HEALTH WATCH 4

AN ALTERNATIVE WORLD HEALTH REPORT

About the GLOBAL HEALTH WATCH

How has neoliberal globalization deepened the global health crisis?
What can we learn from social struggles to radically transform our approach to health?
With contributions from more than 80 activists and academics from across the globe,
Global Health Watch 4 (GHW4) scrutinises global power relations and institutions that impact health,
and documents struggles and actions for health activists to challenge the current system.

Key note Panel:

Dr. Spiegel: professor at UBC School of Population and Public Health & Liu Institute for Global Issues; Co-Director of Global Health Research Program

Dr. **John Calvert**: professor at SFU Faculty of Health Sciences; International Public Policy and Health Impact Issues

Ms. Jannie Wing-sea Leung: Community organizer and health worker, Alliance for People's Health

Prince Adu: PhD student at UBC SPPH, Ustawi Health Research Association (UHRA)
